

There is a lot of stuff that hypothetically can be broken or otherwise disconnected so there is plenty of non-mandatory relations and attributes.

For triggers.

Logs

- # * E-ID
- * ID type
- * Date
- * Data

In planning/Working/Closed etc.
Triggers will decide if type is good or not.

In production/In
transit/Working/In
maintenance/Decomissi
oned etc.

One-way

Flat/Tunnel/Bridge etc.

Passenger/Passenger+Vehicle etc.
